It also includes health information and biometric information.

## **3. Policy Principles**

### **3.1 Personal information collected and methods of collection**

The types of information the school collects and holds includes, but is not limited to personal information, including health and other sensitive information about:

- Students and parents and/or guardians before, during and after the course of a student's enrolment at the school.
- Job applicants, staff members, volunteers and contractors and
- Other people who may come into contact with the school

The School will collect personal information where that information is reasonably necessary for the performance of one or more functions and/or activities of the school.

The School will collect personal information by lawful, fair and transparent means and wherever possible, directly from the individual.

The School will generally collect personal information held about an individual by way of forms filled out by parents, guardians or students, face-to-face/online meetings and interviews, emails and telephone calls. On occasions people other than parents, guardians and students provide personal information.

In some circumstances the School may be provided with personal information about an individual from a third party, for example a report provided by a medical professional or a reference from another school. This personal information will be treated in the same manner as if it were collected by the school.

If the School receives personal information about a third party from an individual, that individual must ensure that:

- The information is correct and has been collected and disclosed in accordance with the Act
- The individual is entitled to disclose that information to the school; and
- Without taking any further steps, the school may collect, use and disclose that information in accordance with this policy.

## **3.2 Use of personal information**

The School will use personal information it collects only for the primary purpose of collection and for such other secondary purposes that are related to the primary purpose of collection and reasonably expected by the provider, or to which the provider has consented.

In the case of students, consent will be obtained from the parent/guardian, or from the student if over 16 years and deemed to have capacity to consent.

Christ Church Grammar School's primary purpose for collection of personal information relating to students and parents/guardians is to enable it to provide schooling and educational services to the student and includes:

- Pre-enrolment matters
- Keeping parents informed about matters related to their child's schooling, through correspondence, newsletters, magazines and other publications
- Day-to-day administration

- Drawing upon the expertise of particular members of the School community to assist with operations and functions
- Seeking donations for the school
- Promotion and marketing of the school and
- To satisfy the school's legal obligations and allow the school to discharge its duty of care

In some cases, where the requested personal information about a student or parent is not provided, the School may be unable to enrol or continue the enrolment of the student or permit the student to take part in a particular activity.

The school's primary purpose for collection of personal information of job applicants, staff members, contractors and volunteers is to assess their suitability for engagement, for administering contracts, insurance purposes and to satisfy legal obligations, for example, in relation to child protection matters.

Personal information held by the school may be disclosed to an organisation that partners with the School in its marketing and fundraising endeavours. All such arrangements are subject to strict contractual obligations and confidentiality agreements.

## **3.3 Consent and rights of access to the personal information of students**

The School respects every parent's right to make decisions concerning their child's education. Generally, the School will refer any requests for consent and notices in relation to the personal information of a student to the parents. The

School will treat consent given by parents as consent given on behalf of the student, and notices to parents will act as notice given to the student.

Parents may seek access to personal information held by the School about them or their child by contacting the Principal. However, there will be occasions when access is denied. Such occasions would include where release of the information would have an unreasonable impact on the privacy of others, or where the release may result in a breach of the School's duty of care to the student.

The School may, on the request of a student, grant that student access to information held by the School about them, or allow a student to give or withhold consent to the use of their personal information, independently of their parents. This would normally be done only when the maturity of the student and/or the student's personal circumstances so warranted.

Health information is securely stored and only staff who have a need to know the information are provided access. Health information of a student is not disclosed to third parties, such as another parent or an organisation or school which may have temporary care of the student unless the School considers it is necessary to disclose it to ensure the health or safety of the student.

The school will seek expert advice in any instance where it becomes aware of health information about a student which the student does not wish to be disclosed to a parent or both parents, unless failure to disclose this information would constitute a breach of the school's duty of care responsibility or mandatory reporting obligations.

The school will take reasonable steps to:

- Destroy or de-identify personal information which is no longer needed for the school's business or required to be retained under law, regulation or any code applicable to the school

## **3.8 Access to and correction of personal information**

Under the Commonwealth Privacy Act (and the Health Records Act), an individual has the right to obtain access to any personal information that the School holds about them and to advise the School of any perceived inaccuracy. Students will be able to access and update their personal information through their parents, but students aged 16 years or over may seek access and correction themselves.

To make a request to access or update any personal information the School holds about a student or his parents, it will be necessary to submit a request in writing to the Principal.

The School may charge a fee to cover the cost of verifying the identity of the applicant and locating, retrieving, reviewing and copying any material requested. If the information sought is extensive the School will advise the likely cost in advance.

## 3.9 Enquiries and Complaints

Enquiries from a student or his parents about the way in which the school manages the personal information it holds, or complaints that the School has breached the Australian Privacy Principles, may be addressed to the Principal or the Privacy Officer.
